

General Practitioners Database

14,000 Contacts

ThinkingData

Description

At the heart of local communities, General Practitioners, their practices, and their support staff, hold a unique position in the front line of the NHS.

This extensive file has been built to provide access to those organisations and the individuals who work for them.

Frequently operating as autonomous organisations, they have both the conventional need for goods and services in common with any small business, and also highly specialist medical and pharmaceutical requirements.

This file covers both administrative, managerial and clinical staff, including practice managers, senior partners and GPs in general. Postal, telemarketing and email contact channels are all available.

The General Practitioners Database will be invaluable for a range of offers including:

- General office supplies
- Medical equipment
- Pharmaceutical supplies
- Financial offers
- Subscriptions and publishing
- Specialist and general recruitment opportunities

The data is pooled from a variety of sources to allow for greater scope and verification. The files are updated and cleaned on a monthly basis to ensure maximum deliverability. All data is compliant with current data protection legislation, including the EU General Data Protection Regulation, the Privacy and Electronic Communications Regulations, and the UK Data Protection Act.

Selections

Employee Band	Geography
Turnover	Email Address
Job Function/Title	Telephone Number

Data Costs

Postal Only
