Introduction

Accurate and well-maintained data is a vital component of any direct marketing campaign. In developing Thinking B2B, we have drawn on almost 50 years of combined industry experience to arrive at a file which is as comprehensive, and as accurate, as possible.

This database covers the whole range of the UK business universe, from SOHOs and SMEs right up to large multinational companies, including:

- Over 3 million Businesses
- 4.1 million Senior Decision Makers
- 2003 Selectable Business Types
- 23 Selectable Business Sectors
- 1.6 Million Telephone Numbers
- 600,000 Company Email Addresses
- 900,000 Decision Makers' Email Addresses

The data is drawn from a variety of different sources, to ensure the best possible levels of coverage, and updated every month to ensure that the latest information is always available for use. It is regularly cleaned and verified to ensure maximum deliverability.

All data is compliant with current data protection legislation, including the EU General Data Protection Regulation, the Privacy and Electronic Communications Regulations, and the UK Data Protection Act. A full compliance overview document is available on request.

This document contains all the key volume breakdowns within the database – including a full listing by business sector, and a full alphabetical listing of business types – to ensure that top-line information is always available for planning purposes. Standard selections available are as follows:

- Business Type
- Business Sector
- SIC Code
- Number of Employees
- Turnover
- Year Started/Date of Incorporation
- Site Type
- Geography
- Profitable or Loss Making Companies
- Telephone
- Email
- Specified Decision Maker

Inevitably, we cannot cover every possible permutation of selections, so for more detailed counts or breakdowns, call us on **0333 772 1927** or email think@thinking-data.co.uk.

About Thinking Data

Formed in 2009, Thinking Data is an independent specialist supplier of highly responsive business databases. We have amassed considerable experience in the supply of business data over many years, and this file represents the culmination of that process.

We aim to provide unbiased information and advice to help you meet your marketing aims, and we will always strive to offer the best solution for your project, rather than simply opting for a “quick fix”.

Thinking Data is a member of the UK Data & Marketing Association.
