

Independent Retailers

298,000 High street establishments

ThinkingData

Description

Independent Retailers is a unique, accurate and highly targeted list. Compiled and updated from more than 20 years' knowledge of building and maintaining a database of this kind, the file offers the opportunity to promote to a multi-billion pound sector of the UK economy.

This sector of the retail industry remains a huge potential market. The Independent Retailers Confederation alone has some 100,000 members, and these types of outlets continue to have a considerable presence on our High Streets.

Precise targeting and research has allowed us to focus on owners, proprietors and managers with real buying power within their organisations, and with a need to expand and grow their businesses in potentially challenging times.

The file includes over 250 retail headings covering all types of establishments. All records have a postal address available, 30% can be provided with email, and 65% have a telephone number.

Independent Retailers is an ideal file for promotions including:

- Producers & Suppliers
- Wholesalers
- Security Systems
- Financial Services
- Store Equipment & Stock Control
- Legal Services

A breakdown of retail types is shown overleaf, but please contact us for more detailed counts and information.

Selections

Business Type	Geography
